Immability Instability Health NFPA: Special Hazard			

Potential Health Effects (Acute and Chronic):	Causes severe skin burns and eye damage. Harmfull if swallowed or if inhaled.
Inhalation:	Inhalation of high concentrations may cause central nervous system effects characterized by nausea, headache and dizziness.
Skin Contact:	May cause skin irritation.
Eye Contact:	May cause transient corneal injury. Causes severe eye irritation and possible eye injury.
Ingestion:	May cause gastrointestinal irritation with nausea, vomiting and diarrhea. May cause central nervous system depression, characterized by excitement, followed by headache, dizziness, drowsiness, and nausea. May be harmful if swallowed.

# Medical Conditions Generally Not Determined. Aggravated By Exposure:

3. Composition/Information on Ingredients
